

COURSE INFORMATION

A selective class has been operating at Kariong Mountains High School since 2012. We continually strive to ensure that the most gifted and high potential students receive an education that challenges their thinking, motivates their learning and supports their wellbeing. Students, who have gone through our elective stream have continued to perform highly in assessments, external tests and competitions.

*If your child is achieving highly at school, then we believe that our **Academic Stream** class can provide a quality learning experience for them.*

SELECTION PROCESS

Entry into this class is through a selection process. Students should be achieving at a high level across a range of subjects, though may have a particular strength in one of the core subjects, English, Science or Mathematics to be competitive.

The process is comprised of:

- Review of NAPLAN results
- Review of student's latest school report
- A recommendation from your child's classroom teacher in the form of a teacher support statement.

If you have any questions about the **Academic Stream** class or the application process, please do not hesitate to contact me on 4340 0246.

Please complete the application package and submit to Kariong Mountains High School via email kariongmtn-h.school@det.nsw.edu.au or hard copy by **Friday 4th April 2025**.

Kind regards,

Donna James
Principal
