### KMHS Update 26/3/2020

Dear Students and Families,

A lot of material and information has been sent out and over the last few days; please look over it and make sure that you understand what is required. You will see an increase in the interactions with classroom teachers and certainly, a reduction in the extensive emails from myself and the school. I did my first podcast this morning and that certainly, was a new experience. It will be nice to mix the messages we are sending between audio and the written word. After my brief introduction, the podcast provides information about the timetable structure, as presented by Mr Bath. The relevant podcasts have been attached to emails sent out for each Stage (separated due to file size).

Thank you, to Mrs Meyer and our office staff for their organisation of the Year 7 immunisations, today. Over 90% of students were able to be vaccinated. The nurses commended our community for this turn-up and the school, for its organisation. She noted, that with the current situation, accessing these immunisations from a doctor is very less likely to happen, so it is good to see another health measure completed to support our students' general health.

I will continue to provide updates, as advice changes and encourage any questions, so that we can provide you with some certainty in these uncertain times.

Continuing to wish that families are doing well.

Anne Vine  
Principal
