COVID-19 Communications

16/03/2020

As you can understand, the advice from the DoE and governments, in general, has been evolving as health officials determine the best course of action to best look after our population.

Please be assured that we are staying up to date and providing you with advice as we receive it. As well as our Facebook and website, the Department has developed an app to provide alerts about critical and serious issues affecting schools. It is a free download from the appstore or Google Play under the title "NSW School Updates".

Our Executive staff have worked on contingency plans in case of an emergency to help ensure continuity of learning. We are well placed, due to our staff's high skill level in use of online technologies such as the Google Suite. It would be appreciated if you check with your child/children that they also know their school email address and password.

If your personal email has changed, please contact the school to have it updated.
