## Dear Investigating Science students and families

The COVID lockdown guidelines have led to many changes in our final processes of completing this course at the HSC. Although these changes can lead to confusion and frustration, please remember that regardless of how it happens, you will get a HSC result in this subject that reflects your attitude and aptitude to your learning.

### Important points for you to know:

- There are **no** Trials examinations
- There will be **no** further assessment tasks to replace the Trials assessment. Adjustment, to provide a mark out of 100 will be made to the existing assessment data. Ranks will be unchanged.
- An opportunity to attempt a practice paper and receive feedback from your teacher will be provided later in the term and at the beginning of Term 4.

Information about misadventure forms and special considerations will be provided in a letter before the end of term.

Remember to take care of your wellbeing and keep a good learning routine. If you have concerns, then please do not hesitate to contact the school.
